

Natural Capitalism Solutions Internship Program  
[www.natcapsolutions.org](http://www.natcapsolutions.org)

Are you a student who is passionate about making a difference in the world? Are you looking for more sustainability experience in a cutting-edge, dynamic organization that promotes, supports, and teaches sustainability? If so, consider becoming an intern at Natural Capitalism Solutions.

At Natural Capitalism Solutions, interns have the opportunity to:

- Work with the sustainability pioneer, Hunter Lovins.
- Hear world-class speakers from various sustainability fields.
  - Past speakers included a former senior economist for The World Bank, the founder of the Boulder Green Builder's Guild, a producer of executive management programs, and a former top Toyota executive speaking on lean and green systems.
- Be "at the table" for innovative discussions and planning sessions.
- Have an individualized internship to develop personal skills and talents.
- See the direct results of your work on the very structure of capitalism in this country and the world.

Hunter Lovins and the Natural Capitalism Solutions team create tools to assist businesses and industry in developing sustainable practices and in becoming sustainable organizations. Natural Capitalism Solutions' interns will research and analyze existing management tools, techniques, and actual practices of organizations pursuing sustainability. In addition, these interns will help develop new tools and strategies to support this work.

Projects for Business Development Internships will vary. Past/current projects include:

- Research and development of material for the Climate Protection Manual for Cities as well as Small Businesses,
- Creation of marketing plans for specific business development projects,
- Identification of solutions and barriers for local governments working to incorporate sustainability,
- Identification of new business opportunities

Interns will have the opportunity to:

- Participate in local conferences, industry events, staff meetings, company outings and networking opportunities

Day to day responsibilities will vary.

### Qualifications

Interns will preferably possess:

- A desire to learn,
- Past research experience,
- Proficiency with Microsoft Office,
- Ability to be flexible and multitask,
- Knowledge of the principles of Natural Capitalism,

The internship is unpaid and requires 15-25 hours per week.
